PUBLIC HEALTH THREAT ASSESSMENT

CONFIDENTIAL
MEDICAL BOARD REVIEW

Medical Quackery & Unlicensed Practice Alert

Subject: Deepanshu Giri & Lunar Astro

URGENT ADVISORY: This dossier documents systematic, unlicensed medical practice, including explicit claims to cure cancer and reverse autism through astrological remedies. The subject is actively monetising these claims, posing a direct threat to public health and vulnerable patients.

CASE REFERENCE
LA-MED-2026-002

AUDIT DATE
June 2026

PRIMARY TARGETS
Indian Medical Association (IMA) | Ministry of Health

SECONDARY TARGETS
CDSCO | State Medical Councils

PREPARED BY
Independent Human Rights & Online Fraud Protection Organisation

SEVERITY LEVEL
CRITICAL — Active Patient Harm

Keywords: Deepanshu Giri Medical Fraud | Lunar Astro Cancer Cure Scam | Deepanshu Giri Autism Fraud | Lunar Astro Quackery | Deepanshu Giri DNA Astrology | Indian Medical Association Complaint

SECTION 1

EXECUTIVE SUMMARY & THREAT PROFILE

This formal threat assessment is submitted to the Indian Medical Association (IMA), the Ministry of Health & Family Welfare, and relevant state medical councils regarding the unlicensed medical practice of Deepanshu Giri, operating under the commercial entity "Lunar Astro."

The subject is actively exploiting vulnerable patients—specifically those suffering from terminal illnesses (cancer) and neurodevelopmental conditions (autism)—by offering fabricated medical diagnoses and "cures" based on astrological charts. These claims are not presented as spiritual comfort, but as explicit medical interventions for which premium fees (₹3,000 to ₹10,000 per session) are charged.

DOCUMENTED MEDICAL CLAIMS ON YOUTUBE	MAX FEE CHARGED FOR "MEDICAL" READINGS	REGISTERED MEDICAL QUALIFICATIONS

MEDICAL ALERT

CRITICAL PUBLIC HEALTH THREAT: The subject claims to possess "DNA-level research capabilities" and asserts he can "see human DNA through astrology." By convincing patients that planetary remedies can cure cancer or reverse autism, the subject actively discourages patients from seeking evidence-based medical treatment, resulting in direct, measurable harm to public health.

The Fabricated Medical Authority

Investigative corporate filings and public records completely dismantle the subject's narrative of authority. His actual academic background is a standard B.Tech in Electrical and Electronics Engineering. Public records reveal he worked as a freelance technician and only pivoted into commercial astrology around 2017 after facing personal financial hardships. He possesses absolutely no medical, genetic, or psychological training.

Statutory Violations

Statute	Specific Violation	Penalty Exposure
Indian Medical Council Act, 1956 (§15)	Practicing medicine without registration in the State Medical Register.	Imprisonment up to 1 year / Fine

Statute	Specific Violation	Penalty Exposure
Drugs & Magic Remedies Act, 1954 (§3, §4)	Advertisement of magic remedies for the treatment of specified diseases (including cancer).	Imprisonment up to 6 months (first conviction)
Consumer Protection Act, 2019 (§89)	False and misleading advertisements regarding health services.	Imprisonment up to 2 years / Fine up to ₹10 Lakhs

SECTION 2

DOCUMENTED MEDICAL CLAIMS & QUACKERY

EVIDENCE LOG JUNE 2026 AUDIT

The following claims have been documented across the subject's public YouTube channel (500,000+ subscribers) and promotional materials. All content has been archived for evidentiary purposes.

1. The "Cancer Cure" Fabrication

> *"I can cure Cancer through Vedic astrology and planetary remedies."*
>
> — DEEPANSHU GIRI, PUBLIC BROADCAST

Medical Assessment: This is a direct violation of the Drugs and Magic Remedies (Objectionable Advertisements) Act, 1954, which explicitly prohibits the advertisement of any remedy claiming to cure cancer. This claim preys on desperate patients, potentially delaying life-saving oncology treatments.

2. The "Autism Reversal" Fabrication

> *"Autism can be reversed through nakshatra analysis and my prescribed rituals."*
>
> — DEEPANSHU GIRI, PUBLIC BROADCAST

Medical Assessment: Autism Spectrum Disorder (ASD) is a neurodevelopmental condition, not a disease to be "cured" or "reversed" via rituals. This claim exploits vulnerable parents, extracting heavy fees while providing zero clinical benefit to the child.

3. The "DNA Analysis" Fabrication

> *"I have researched human DNA through astrology — I can see your DNA."*
>
> — DEEPANSHU GIRI, PUBLIC BROADCAST

Medical Assessment: A scientifically impossible claim designed to mimic the language of genetics to establish false clinical authority. The subject uses this fabricated credential to justify premium pricing for "medical astrology" consultations.

4. The "Terminal Illness" Fabrication

> *"My clients have been cured of terminal illness through my remedies."*
>
> — DEEPANSHU GIRI, PUBLIC BROADCAST

Medical Assessment: The promotion of unverified, miraculous cures for terminal illnesses is the textbook definition of medical quackery. Independent investigations have revealed that "client testimonials" used by Lunar Astro have included paid digital content creators hired to read scripts.

> **Documented Patient Harm:** "Dozens of parents documented that Lunar Astro's automated panel predictions were completely wrong about birth months and medical delivery timelines. Clients who paid heavy fees (₹3,000 to ₹10,000) for these precise medical timelines reported that the predicted windows passed with zero health issues. Conversely, many faced acute medical emergencies on dates his panel marked as completely safe."

SECTION 3

REQUIRED REGULATORY ACTION

The medical community cannot allow unlicensed individuals to monetise the desperation of cancer patients and parents of autistic children. We formally request the following immediate actions from medical and regulatory authorities:

1. Indian Medical Association (IMA) Action

- Issue a formal public health advisory warning citizens against seeking medical treatment, cancer cures, or autism interventions from Deepanshu Giri and Lunar Astro.
- File a formal First Information Report (FIR) under the Indian Medical Council Act, 1956, for practicing medicine without a license.

2. Ministry of Health & Family Welfare Action

- Initiate prosecution under the Drugs and Magic Remedies (Objectionable Advertisements) Act, 1954, for the public advertisement of cancer cures.
- Direct the Ministry of Electronics and Information Technology (MeitY) to block YouTube channels and websites actively promoting these illegal medical claims.

3. Consumer Protection Action (CCPA)

- The Central Consumer Protection Authority (CCPA) must initiate a class-action investigation into the financial exploitation of patients who paid ₹3,000–₹10,000 for fabricated medical timelines.

MEDICAL ALERT

EVIDENCE PRESERVATION: All medical claims documented in this report have been screen-recorded, archived via web.archive.org, and preserved in encrypted evidence packages. Deletion of the original YouTube videos by the subject will not destroy the evidence required for prosecution.

> **How to File a Complaint:**
> • **IMA Anti-Quackery Wing:** Submit this dossier directly to your state IMA branch.
> • **Ministry of Health (PG Portal):** pgportal.gov.in (Category: Health & Family Welfare)
> • **National Consumer Helpline:** consumerhelpline.gov.in (Category: False Medical Advertising)
